## Prompt Action Will Save You Money

It is now only a matter of a few weeks before the price of the Fairfield "Six-46" will be substantially increased.

As every business man knows, the costs of materials and labor have been soaring for the past yearand are still soaring. Many commodities cost twice as much as they did even six months ago.

So, of course, there is only one thing for a manufacturer to do-increase the selling price of his product in proportion to the increased cost of materials. We absolutely refuse to "compro-

mise" on the quality of Paige

cars. We insist upon using the

best materials no matter what they may cost.

So, now is the time to act if you are interested in saving money. The best of all light sixes can now be purchased for \$1375. If you wait too long, the opportunity will be gone.

Remember, the Paige Company challenges any manufacturer in the industry to produce a car— within three hundred dollars of the Paige price—which offers as much luxury, comfort and all around dependability as the Fairfield "Six-46." This challenge stands uncontested.

Won't you make it a point to see the Paige Dealer today?
